

Maintain and govern a central repository of projects including proposals, active, on-hold, and completed projects. Utilize security to allow select project managers to view and or edit projects. Rapidly initiate new projects from scratch or by cloning existing templates or past projects. Create and manage views and perform in-line editing and in-line bulk editing to quickly maintain your project portfolio. Utilize sorting, grouping, filtering and search functions to adjust your view of the portfolio and introduce an unlimited number of customized attributes to align Tempus Resource with your project portfolio management data-driven requirements. Migrate your projects from spreadsheets or 3rd party systems in minutes and be up and running with ease.
