- Simulate What-If Scenarios

2026 Gartner® Magic Quadrant™ for Adaptive Project Management and Reporting

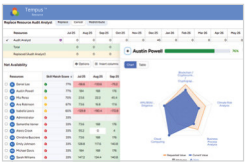

Resource Capacity Planning

Aggregate roles, skills, and people to see true capacity across the enterprise. Replace Excel-based planning.

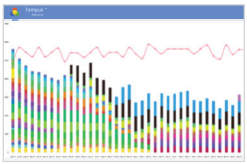

Scenario Modeling

Model "what-if" scenarios to balance portfolios against available capacity and budget.

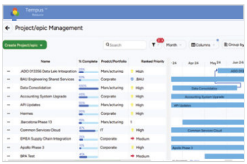

Skills-Based Resource Planning

Define the specific skills required for each project and instantly match them against your team's actual skill sets. Develop and maintain a talent marketplace.

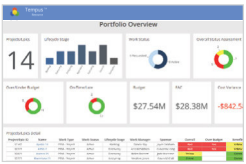

Forecast and Optimize Resource Utilization

Align workforce supply with project and portfolio demand across the enterprise. Identify critical skill gaps and where they will be needed next.

Strategic Roadmapping

Manage and visualize all work – Agile, waterfall, and hybrid – within one flexible platform. Adapt plans, priorities, and resources as strategies shift.

Reporting that Drives Action Across the Portfolio

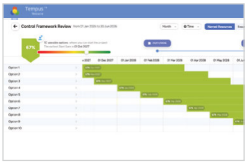

Visualize capacity, utilization, and portfolio health instantly. See what work can be delivered and what work is at risk.

Other Features Include:

- **Built-In Collaboration and Traceability**
- **Fully Integrated Timesheets**
- **Skill Gap Analysis**
- **Demand Intake Workflows**
- **Document Storage**
- **Hybrid Planning and Forecasting Agile Teams**

Optimize Portfolio Timing and Priorities

Visualize where proposed initiatives can fit within your portfolio based on priority and resource availability. Assess existing projects to see where timelines can be adjusted to maximize delivery impact.

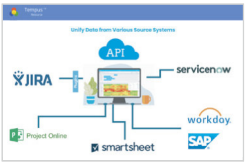

Streamline Intake and Approval Process

Convert proposals, requests, demands, and opportunities into structured projects or initiatives. Standardize workflows and approvals to ensure work is consistently executed with clear accountability.

Streamline Resource Requests

Give resource managers full visibility to review, approve, or reassign requests based on capacity, skills. Keep communication in app and out of emails and spreadsheets.

Seamless Enterprise Integration

Integrate with ERP, DevOps, ITSM, PPM, and HR systems out of the box using APIs, connectors, and integration frameworks.
